

# THE CLIMATE EMERGENCY

## THE FUTURE IS IN OUR HANDS

Climate scientists have warned us that we are facing a planetary emergency which threatens the survival of most species on the planet. Yet the world's most powerful governments and corporations insist on staying the same catastrophic course. Their only concern is to continue accumulating profit. Our only hope is to organize to overturn their entire system of destruction. The future of our planet and our species is in our hands. Join Speak Out Now for a presentation and discussion about how we can begin to confront this emergency.

**SATURDAY**  
**SEPTEMBER 28**  
**DOORS OPEN 6:30 PM**

South Berkeley Senior Center  
2939 Ellis St., Berkeley  
(near Ashby BART)
