

A Speak Out Now Townhall

We Will Not Be Sacrificed!

Voices from so-called “Sacrifice Zones”

The coal, oil, gas, and plastic industries have created “sacrifice zones” with the waste from their production. Workers and communities in the surrounding areas have been poisoned.

We will be gathering to hear from and discuss with people, via zoom, who recently traveled to East Palestine, Ohio, the site of a massive train derailment.

We will also hear from some of the people who are directly impacted by this and other man-made disasters and their efforts to stop the attacks on their communities and the environment for the profits of these corporations.

Saturday, April 13, 4pm

2727 California Street, Berkeley, CA
