

A Speak Out Now Townhall

We Will Not Be Sacrificed!

Voices from so-called “Sacrifice Zones”

The coal, oil, gas, and plastic industries have created “sacrifice zones” with the waste from their production.

This waste is poisoning the land and the communities around them.

Join us to hear from and discuss with people, via zoom, who recently traveled to some of these sacrifice zones. And hear from people who have been organizing to stop the attacks on their communities and the surrounding environment.

Saturday, April 13, 4pm
2727 California Street, Berkeley, CA
