***Fight explosive oil trains in Baltimore!***

***Stop the new liquefied fracked gas  
export terminal at Cove Point!***

While it's crucial to organize to stop climate change globally, we also face immediate environmental threats from the fossil fuel industry in Baltimore and other parts of Maryland. Join the discussion on what to do short-term and long-term with speakers from **Clean Water Action, Chesapeake Climate Action Network, and We Are Cove Point.**

*Organized by Baltimore Speak Out Now/Revolutionary Workers Group.* We believe that, to end all forms of oppression and exploitation, we need to overthrow the capitalist system and establish a socialist society both here in the U.S. and around the world. We also believe that it is essential to organize to defend our communities today against all forms of oppression and exploitation.
